

REVOLUTIONIZING
AGRICULTURE

OORJA EV

DRIVE THE CHANGE WITH
OORJA EV TRACTOR.

A **CYGNUS**  MOTORS GROUP COMPANY.

About Cygnus Motors

With a strong belief to foster the culture of sustainability & high standards of renewable energy, Cygnus Motors designs and produces top-grade 4-wheeler LCV vehicles.

Cygnus proposes to be at the forefront of India's renewable energy revolution. We aim to redefine India's landscape with green & clean solutions.

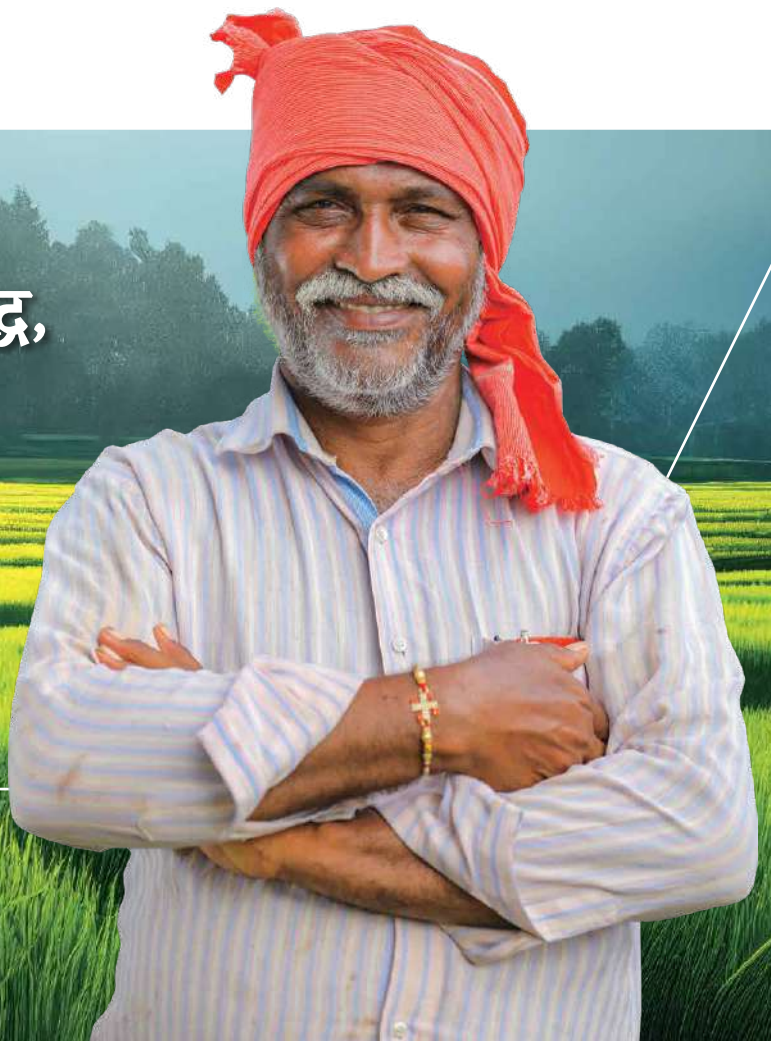

OORJA^{EV} - Revolutionizing Agriculture

India is a fertile land where opportunities are, as we speak, germinating to their fullest potential. Being one of the biggest agrarian countries of the world, the farmers of our nation are touted as the “अन्नदाता”.

India is often referred to as a कृषि प्रधान देश, where agriculture forms a strong backbone of the nation's economy.

With Oorja, we aim to strengthen the ecosystem of farming by empowering the farmers. We believe that our religious efforts in this direction can bring a positive change in the agricultural practices of the nation.

हर खेत समृद्ध,
हर किसान समृद्ध,
तो देश समृद्ध।

Introducing Oorja Tractors

"Oorja EV Tractors" is Cygnus Motors' ingenious addition to the world of agricultural vehicles. With Oorja, we're not just introducing EV Tractors, we're sowing the seeds of sustainability. Oorja will stand as a testament to our commitment to a greener, cleaner future.
